ONLINE LEARNING

Taking courses online provides a flexible and convenient opportunity for you as a student. Our online platform includes Blackboard and/or Blackboard Collaborate (previously named ElluminateLive!).

Many of our online courses and programs use Blackboard as the learning management system, providing students with the flexibility of choosing the time of day or night they wish to participate in their course.

Graduate courses in Education (MEd) use both Collaborate and Blackboard. Collaborate is real time, meaning you and your peers are present at the same time. Through Collaborate you will be able to listen and speak with others and, through interactive tools, see and share activities. Blackboard is often used for discussions and document sharing throughout the term.

To ensure that you are prepared to be an online learner and to help you prepare for positive and successful online experiences here are a few tips and suggestions:

- You must have access to a computer and the Internet on a regular basis. You will need to check your course daily to participate in discussions and to get course materials and updates. Also, keep your StFX email inbox active, as it is the professor's method of communicating with you.
- You must be prepared to spend at least 10 hours of study time per week for each course you are taking. Online courses provide flexibility and convenience; however, they do require time, commitment, and attention.
- Time management skills are important in an online course. Check your course daily for new postings, updates, assignment deadlines, quiz dates, etc. In many courses, weekly schedules are provided to help you stay on track.
- Blackboard and Collaborate tutorials are available. Participate in a tutorial before the course begins to ensure that you are prepared for the first class. These tutorials will help your understanding of the transition from traditional classroom into an online classroom and ensure you have the required technology to participate.
- You will be expected to participate and share in discussions by responding to questions posted by the instructor as well as responding to postings by others in your class. This is done in an open, constructive, and friendly manner. Posting your thoughts and comments provides you the opportunity to reflect on your answers before posting them.
- Technology guidelines for Windows and Mac are provided on page 6.

You are responsible to check with the StFX Admissions Office (902-867-2219) before February 15 to make sure your transcripts and reference letters have arrived. Incomplete files will not be considered for admission.

PROGRAM OVERVIEW

The Master of Education program is grounded in two main purposes: to provide a space for student to understand their professional knowledge and to make meaningful links among this knowledge and the conceptual and theoretical knowledge of educational research.

StFX offers a MEd degree with specialization in Educational Leadership and Administration, or in Curriculum and Instruction. Students must complete the specified core courses and choose electives appropriate to their interests.

There are three options by which a student may complete the requirements for the MEd: a thesis route, a project route, or a course-based route. Students who choose the thesis route must complete 24 credits in graduate education courses and a 12-credit thesis. Students who choose the project route must complete 30 credits in graduate education courses and a 6-credit project. Students following the course-based route are required to complete 36 credits in graduate education courses.

The degree fulfills the requirements of the Nova Scotia Department of Education for an increase in level of teacher certification. Graduate courses in Education are offered as fall, winter, spring, and summer courses in locations around the province and online.

Candidates for the MEd are normally required to take EDUC 534 and EDUC 505 as their first two courses on the StFX campus in Antigonish during the summer session immediately after being accepted into the program. EDUC 505 is a prerequisite for EDUC 506, EDUC 507, and EDUC 508. Normally, EDUC 506, EDUC 507, or EDUC 508 is taken after core courses are completed. EDUC 506 or 507 is required for the thesis and project route; EDUC 508 is required for the course-based route.

Not all courses are offered each year.

Normally only students who have been accepted into the StFX Master of Education Program are eligible to enroll in graduate education courses offered through St. Francis Xavier University. Graduate students in good standing from a graduate program at another university may also apply to take up to 12 credits of MEd courses at StFX. A letter of permission from the student's current university must be supplied. For further information contact the Continuing & Distance Education Department toll free at 1-877- 867-3906 or email med@stfx.ca.

INTERNATIONAL STUDENTS

Qualified international students are encouraged to apply for full-time graduate studies in the Master of Education Program. Prospective students should plan to be at StFX for a minimum of 13 months (July 1 – July 30 of the following year). International students are encouraged to arrange their travel plans to arrive at StFX by the first of July. For further information on international students, please see: <http://www.mystfx.ca/services/international-student-office/>

INTERNATIONAL STUDENT HANDBOOK

See <http://www.mystfx.ca/services/international-student-office/pdfs/handbook.pdf>. Although this publication is directed toward full-time undergraduate students, it contains valuable information for graduate students as well. The main difference is students in the Master of Education Program must plan their arrival on campus for July 1 not September 1 as indicated in the *Handbook*.

COHORTS

In partnership with various Nova Scotia school boards, the StFX Faculty of Education offers Master of Education cohorts in program areas of identified need. These cohorts provide groups of teachers with opportunities to pursue learning together as they build their capacity to provide leadership for the improvement of education within their school board. For further information, please call the Program Office at (902) 867-3906 or toll free at 1-877-867-3906.

FULL-TIME STUDY

An increasing number of graduate students have opted for full-time study. Approximately 8–12 full-time graduate students participate in the program each year. The Faculty of Education wishes to encourage this option as it provides excellent opportunities for faculty and graduate students to learn and grow together as graduate students work alongside faculty in Bachelor of Education classes.

Full-time students have the opportunity to complete a course-based MEd over a 13-month period. Students working on a thesis or project may complete course requirements for the degree over the Summer, Fall, and Winter terms and begin their research. Although it is not necessary to know which route (thesis, project, or course-based) to take before beginning the program, students interested in the thesis or project as part of their full-time study arrangement should contact the Continuing & Distance Education Department for additional information. All students must begin their MEd program in July by taking two courses in the summer school term on the StFX campus immediately following their acceptance into the program.

- Students in the thesis and project routes will be assigned an advisor who will work closely with them in data collection and writing stages.
- Office space and study awards may be available for full-time graduate students.
- MEd courses may be offered in the late afternoon / evenings and on weekends. Students having a valid Nova Scotia teaching license have the option of applying to substitute teach in the community.

Application for admission to the full-time / part-time MEd program must be completed by the February 15 admission deadline. The full-time program runs from July to July inclusive.

PART-TIME STUDY

The majority of Master of Education students are enrolled on a part-time basis. These students normally take one course per term. To accommodate educators who are working at school during the day, courses are usually scheduled in the evening or on weekends. Most part-time students can expect to finish a course-based program in about 2.5 years or less. Part-time thesis and project students will require a longer time frame and should discuss with their advisor an estimated completion date.

SUMMER SCHOOL REQUIREMENT

As part of the Master of Education degree requirement students attend summer session on the StFX campus in Antigonish during July immediately following acceptance in to the program. This summer opportunity is an excellent beginning to the MEd program and one of the many reasons that our MEd program is graduate education students' program of choice. Summer courses offer the opportunity for students to meet and learn from and with educators from other school jurisdictions across the province, country, and other places around the world. Graduate students find this interaction provides excellent opportunities to share ideas that lead to innovation and creative development in their own professional learning contexts.

STFX EMAIL ACCOUNT

Please check your StFX email account on a regular basis. All students are required to maintain their StFX email accounts by changing their password as required and ensuring their mailbox does not exceed its limit. All information coming from the Program Office and from other university departments will be sent to your StFX email account only. ■ LIBRARY (Angus L. Macdonald Library) EXTENDED LIBRARY SERVICES

http://library.stfx.ca/help/distance_education.php

Students in Continuing & Distance Education courses sometimes find doing research for an assignment challenging. Extended Library Services is a support system designed to help you over that hurdle, so you can learn to find the library and information resources you need to complete your course work.

Where do I begin?

Normally, your local library (whether a university, college, hospital, or public library) should be your first resource for locating research material.

Most local libraries will loan books, allow you to photocopy materials (subject to copyright legislation), access the Internet, and obtain materials from other libraries on inter-library loan. A charge may apply to some or all of these services.

StFX will provide registered students with a library card and, on request, a letter of introduction to local librarians. Your StFX library card can be used to borrow books from StFX or any library in the Novanet system.

Most Canadian academic libraries now allow in-person borrowing upon presentation of a CAUL (ASIN) card. Cards are available to StFX students who are in good standing with Novanet by contacting **Pam MacLean** at the Angus L. Macdonald Library at (902) 867-3890 or pmaclean@stfx.ca.

Some students will find it difficult to obtain appropriate materials through local libraries, either because they live a distance from such a library, or because the resources available are limited. Extended Library Services is designed to meet the various needs of such students.

What support is offered?

- Advice on library procedure
- Solutions to problems with library cards
- Document delivery of books and journal articles
- Assistance with renewal of book loans
- Support for literature searches
- Assistance in locating specific materials
- Technical support with the use of electronic resources such as online journals

Remote Access to the Library's Electronic Resources

Your WebFX User Name (for example, x2011abc) and password (same as for WebMail) enable off-campus users to access the library's electronic journals and databases through a "proxy server".

Some of the full text databases available through the proxy server are listed below:

The services of the Writing Centre are available to all StFX students and are designed to complement course work. Students can arrange one-to-one meetings with an instructor to discuss specific work in progress or to assess and improve their academic skills, such as note-taking, time management, grammar, oral presentations, and exam preparation.

The Writing Centre can help students

- develop a research plan,
- develop a thesis statement,
- organize ideas and source material,
- document sources (MLA, APA).

Distance students can fax or email assignments or term papers for feedback; however, students should allow 1–2 weeks for staff to evaluate submissions.

The Writing Centre website (www.mystfx.ca/resources/writingcentre/) is a valuable resource for students. In addition to providing tips and information on how to improve writing, check the Frequently Asked Questions (FAQs) page, which answers many of the common questions distance students ask.

If you need assistance, contact the Writing Centre at (902) 867-5221, by email at writingc@stfx.ca or by fax at (902) 867-5380.
